Location: No.17, Street 10, Vietnam Singapore Industrial Park, Thuan An District, Binh Duong Province, VIETNAM

Tel: +84-650-3767909

President's Message

Takehiko Sakaushi

Yokohama Tyre Vietnam Inc. makes tires for export to Japan and direct sale in domestic markets. Our bias (cross ply) tires are used mainly on motorcycles, small trucks and industrial vehicles. The company has been operating since January 2008, and therefore, we are still relatively young with much to learn. But we are doing well, thanks to the enthusiasm and vitality of our Vietnamese staff and the support of our affiliates and head office in Japan. The general public in Vietnam has recently started to show a deeper interest in the environmental issues. It is

an important first step, but there is still a long way to go. We are working to instill an understanding of the fundamental importance of cleaning, tidiness and discipline as the basis of all indicators used at the Company.

In FY2009, the Company took part in various sporting events held in the local region and with affiliated companies. While the results did not always go our way, these events were certainly very successful in terms of forging closer links with the local community.

Since February 2010, we have been preparing our application for ISO14001 certification, involving daily study sessions and preparation of documentation. We plan to obtain certification in November 2010, then continue working to boost our standards using the PDCA cycle. We are also working on preparations for the first phase of planting in the YOKOHAMA Forever Forest project, due to take place in December 2010. As a member of the Yokohama Rubber Group, we have an ongoing commitment to becoming a top-level environmentally responsible enterprise.

Soccer practice together with local players

Environmental Initiatives

Environmental Policy in FY 2010

1. Tackle all environmental matter aggressively
2. Establish and strengthen the environmental management system by implementing preventive measures against pollution through continuous improvements.
3. Comply with applicable legal regulations, government directives and other environmental requirements.
4. Set and carry out the waste control targets by waste reduction and waste recycling
5. Plan and carry out the global heating countermeasures by energy saving activities and by planting trees.
6. Plan and participate various community based environmental activities to establish better community together.
7. Provide employees with broad wide environmental information, education and training to employees.
8. This policy shall be made available to the public.

Environmental data (Fiscal Year: From January through December)

Item		FY2009
Waste emissions (t)		—
Proportion sent to landfill (%)		—
Energy use (oil equivalent: 1,000 kl)	Electric power	1.32
	Fuel	0.71
	Total	2.03
Greenhouse gas emissions (1,000 t-CO ₂)		4.9
Water use (1,000 m ³)		25
Waste organic solvent output (t)		17

* Greenhouse gas emissions in FY2009 were calculated based on the Calculation and Reporting Manual for Greenhouse Gas Emissions jointly published by Japan's Ministry of the Environment and the Ministry of Economy, Trade and Industry (METI).

The “Stop, Call, Wait” action principles in the FY2010 Health and Safety Program are used to boost safety awareness.

Nguyên tắc an toàn – Hành động cần thiết khi có sự cố là “Dừng – Hô – Chờ”

Khi vào bên trong hệ thống tuyệt đối phải dừng máy !

- . Khi xảy ra sự cố, trong lúc đang tìm cách xử lý phải dừng máy
- . Khi kiểm tra thiết bị, phải dừng máy

Hô gọi người tới giúp theo quy định

- . Máy có 2 người cùng làm việc thì gọi người còn lại
- . Máy có 1 người làm việc thì gọi người ở máy bên cạnh

※ Người được gọi phải báo cáo với giám sát.

Chờ tại nơi quy định

- . Chờ bên ngoài hàng rào an toàn
- . Chờ trước bảng điều khiển
- . Chờ đến khi người được gọi đến

Working with Local Communities

Local donations

The following donations were made during FY2009.

(1) Part of a program sponsored by companies in the VSIP industrial Estate

- Every December
- Refurbishment of and provision of teaching materials to local elementary schools close to the VSIP; scholarships for students from the local province
- \$500 donation (FY2009)

(2) Financial assistance for relief efforts following the Central Vietnam typhoon

- September 2009
- Donation of \$10 million dong (= \$540) + clothing and other emergency supplies

Preparations are underway for the Phase I planting in December 2010.

Planting on site
